Your nesting is harmful – On abusing a preprocessor's feature

# Kevin Lorenz

Frontend Developer (CSS Wizard) at IDAGIO

Berlin, Berlin, Germany

## Summary

Kevin is a frontend developer who enjoys building software for the web. He likes to share his knowledge, by organizing/coaching events like CSSclasses and CSSconf EU. He occasionally writes about tech, speaks at meetups and conferences and got a hang on MCing conferences as well.

### Latest talks:

- Visual regression testing with JavaScript
- Your nesting is harmful

---

## Experience

### IDAGIO

Senior Frontend Developer (CSS Wizard ♂#)

August 2016 - Present (3 years 8 months)

Berlin

Working as frontend developer with a focus on HTML & CSS for IDAGIO, a classical music streaming service.

The current tech stack includes:

- React
- Redux
- Webpack
- Sass, CSS Modules, Styled Components
- Electron

### CSSclasses

Organizer, Coach

2014 - Present (6 years)

Berlin

CSSclasses is a one day event for people who are interested in learning how they can create and manipulate elements on a website. A group of experienced developers will be by your side all day and make sure you return home with a lot of new knowledge. The event itself is separated into two parts: A workshop where you will learn how to get creative with CSS and a

hackathon where you can then make your hands dirty and work on your own little fun project.

### CSSconf EU

Organizer

2015 - 2017 (2 years)

Berlin

<http://2015.cssconf.eu/>

### HitFox Group / Finleap

Frontend Developer

2015 - July 2016 (1 year)

Berlin Area, Germany

- Realising websites / web applications, using modern web technologies
- Taking care of junior developers, providing guidance, walking through code reviews and working together on open source.
- Improving internal coding workflows

### deepblue networks AG
